Weather Forecast.

For North Carolina—Showers Sunday, cooler except in extreme western portion. Monday, fair, warmer, variable winds.

Some of the newspapers in North Carolina appear to be as hot as the weather up the country where no refreshing sea breezes blow.

Jeffries, the fistic champion, quit the ring because his wife demanded it. Jeffries possessed sufficient equine sagacity not to risk his championship belt in contending with the champion of the home circle.

It is proposed to establish a Republican paper at Columbia but a New Englander says he does not know where it will get a subscriber as he looked everywhere in South Carolina and couldn't find a Republican. Probably the New Englander failed to look in some of the cemeteries.

"Education is conducive to marriage," contends a Vassar professoress. 'Tis for a woman, but we positively refuse to get off the lid long enough for some married man to emerge with a statement that marriage is conducive to the education of a man who has graduated in matrimony.

A good deal of comment has been indulged in because President Roosevelt appointed a committee or commission to nose around in the Departments to see how they conduct their business. The President is right. Where Republicans run things it is perfectly proper to appoint a committee on suspicion.

President Rossevelt used a lot of type-written paper to get around a prosecution that he claims would not have involved Secretary Paul Morton if suit had been brought. In shutting off the prosecution because Mr. Morton was not responsible, the guilty parties also get their immunity under the same policy.

The Equitable Assurance Society's funds were used by the hundreds of thousands of dollars for private purposes. A North Carolinian imitating the Equitable officials with a $10 bill as the sum of his squandering would have been in jail by this time if his transactions had become so widely known as those of the Equitable swipers.

POLICE ME UP HIGHER

Headquarters Moved From Basement of City Hall Building—Place for Summer Excursionists.

At last police headquarters have been removed for "keeps" from the unsanitary, the disagreeable and the uncomfortable basement of the City Hall building to the upper floor or city court-room where the blue coats were wont to answer roll-call up until a few years ago when the removal down stairs was made. The change yesterday was by permission of Mayor Waddell and the hall officers are now "at home" in the cool and less odoriferous atmosphere of the first floor The damp, musty and unwholesome air from the city prison with the intense heat of their underground home had become more than the inhabitants of the police headquarters could stand and the removal was permitted upon petition to the Mayor for sanitary and health reasons. The telephone, prisoners' case, clock and all other paraphernalia of police headquarters have been installed in the new place and the change is quite refreshing to both the public and to the officers.

Should the Public Building Committee decide to convert the City Hall lawn into a park for excursionists the old police headquarters will be fitted up with modern conveniences for the visitors and a place where they can go in time of rain or storm. The committee has the plan under consideration and if the idea of using the Court House grounds, as agreed upon some time ago, is abandoned, the vacated police headquarters will no doubt be used. But in the meantime, the Summer is on and the committee should not delay, but at once agree on something and get to work. The question of providing some means of accommodation for the excursion class of Summer visitors has been dilly-dallied with too long already. Last Summer there was meeting after meeting and site after site was proposed until the Summer was gone and Fall and Winter came with still no provision. Is history to repeat itself in this regard the present Summer? The public and the business community especially are already chafing under the delay. They hope not.

LOCAL DOTS.

—Other local on fourth page.

—The Delgado Band will give a concert at Carolina Beach this afternoon.

—Mr. B. J. Kuhlken has added a box of fine cigars to the lost of donations for the police excursion.

—Children's Day exercises will be observed at Fifth Street M. E. church to-night beginning at 8:15 o'clock. The public is cordially invited.

—The British steamer Armenia, hence for Glasgow, Scotland, with cargo of veneering timber for the Acme Tea Chest Co., arrived out yesterday.

—Rev. J. M. Wells, D. D., pastor of the First Presbyterian church, returned last night and will conduct services in the Chapel on Wrightsville Beach at 8:30 o'clock to-night.

—Knight's excursion to Newbern leaves to-morrow at 7:30 o'clock, returning same day. A baseball game between colored teams from Wilmington and Newbern will be one of the attractions for the excursionists.

—Contemplating an unusually heavy travel to the beach to-day, the Consolidated Company will operate extra cars this afternoon, leaving the city at 2:30, 3, 3:30 and 4 P. M., and leaving the beach at 5:45, 6:15, 6:45, and 7.15 P. M.

—Visitors to Carolina Beach may now secure furnished rooms by the day, week or month at the Kure House, on the sound or across the sound directly on the ocean front. Mr. H. A. Kure will give rates and any information.

—There will be a joint installation of officers of St. John's, Wilmington and Orient lodges of Masons in the Masonic Temple Monday evening. Messrs. Asa W. Allen, C. C. Brown and Capt. W. P. Oldham compose the committee in charge.

—The town of Dunn, N. C., has just sold an additional issue of $10,000 public improvement bonds to a Chicago firm at a handsome premium. The town is one of the most progressive in North Carolina. Its taxable property now exceeds $700,000.

—The Fayetteville Observer says that M. W. Eason, of that city, while attending Federal Court here the past week, was injured in the collision of suburban cars a few days ago near Delgado, and has entered suit against the company for damages.

CIRCUIT COURT TERM

Several Important Cases for Hearing by Judge Purnell the Coming Week

YESTERDAY'S PROCEEDINGS

Pension Matter From Cumberland Continued Until Next Term—Big Land Suit From Pitt Court—Parker vs. Water Works.

Only a brief session of the Federal Court was held yesterday, a recess having been taken at 11:30 A. M. until 10 o'clock to-morrow morning when Circuit Court or civil causes will be taken up. The pension matter of Marion W. Tyson, W. C. Riddle, and J. T. Bynum, which was expected to require some time for trial, was continued until next term upon motion of Claude M. Bernard, Esq., of Raleigh, counsel for the defendants, who said that he desired further time to get witnesses. He also filed a demurrer in behalf of his clients which was overruled by the judge presiding. The defendants were required to give $250 bond each. Col. A. H. Slocomb, of Fayetteville, became the surety in the amount named.

The defendants in the case are all well known citizens of Cumberland county. Mr. Bynum was formerly register of deeds of the county; Mr. Riddle is a prominent citizen living near Fayetteville and Mr. Tyson is with the A. C. L. at Hope Mills, N. C.. It is understood that the charge is a mere technical violation in that they were witnesses to the wrong signature in the proceedings leading up to obtaining a pension for a son of Mr. Dan Tyson, who died while in the U. S. army in the Philippines.

The District Court docket having been exhausted, cases on the civil docket were called. The case of Rountree & Co., of New York, vs. Harry Skinner was continued until next term.

A jury was empanelled in the case of Clarence L. Parker vs, Clarendon Water Works Co., a matter of long standing, and the trial of the issues will begin Monday. The plaintiff is represented by Hon. J. P. K. Bryan, of Charleston, S. C., and Iredell Meares, Esq., of Wilmington. He is suing to recover a balance on a contract for the sinking of an artesian well at the pumping station of the water works company in this city, and also for wrongful detention of some well machinery in a dispute which arose over the work after the well had been sunk to considerable depth. Damages are asked in the sum of $5,000 making the whole amount involved about $15,000. Messrs. Davis & Davis and Hon. Jno. D. Bellamy represent the water works company.

The next case for trial will probably be that of Pattie Y. DuPree and others of Mississippi, against W. W. Leggette, involving the ownership of a large body of timber land in Pitt county. Messrs. Rountree & Carr represent the plaintiff and Messrs. Isaac Suggs and J. G. James, of Greenville, and Russell & Goodman, of Wilmington, will appear for the respondents.

During the sessions of the court yesterday, Thos. D. Meares, Jr., Esq., of Wilmington, was introduced by Col. Harry Skinner, the district attorney, and was sworn in to practice in the courts of the United States.

AT LUMINA TO-DAY.

Popular Wrightsville Retreat Will Be Mecca for Hundreds To-Day.

Lumina will as usual attract a large number of visitors to-day. The place is really a revelation in seashore delight, and those who have not visited this favorite resort should do so to-day. For once, at least, the Consolidated Company has done the hand some thing by the great masses of people in Wilmington, for they have been provided with one of the most attractive and pleasant retreats on the Atlantic Coast. Every convenience is provided and a most pleasant day may be spent there at the minimum cost of a trip to the seashore.

This afternoon and evening the splendid orchestra at Lumina will give two fine concerts—the one in the afternoon , the other at night. The programmes embraces something in music to please everyone and to miss the concert will be to miss a real treat.

Mr. N. A. McQueen Dead.

The Fayetteville Observer of yesterday chronicles the death of Mr. N. A. McQueen, in the Highsmith hospital in that city. Mr. McQueen was 40 years of age and was well known here. He was a son of the late Sheriff Neill McQueen, of Cumberland, and leaves a wife and seven children. He is also survived by his brothers, Messrs. Angus, Love and Peter McQueen, of Red Springs, and his sisters, Mrs. John Byrnes, of Red Springs; Mrs. Dr. Stamps, of Lumber Bridge, and Misses Sallie, Alimina and Nellie. At the time of his death Mr. McQueen was engaged in the lumber business at Red Springs. The funeral will be held from the Presbyterian church in Fayetteville at 9:30 o'clock this morning.

THE BIG SALE.

Commences Tomorrow at 10 O'clock.

To-morrow morning promptly at 10 o'clock J. H. Rehder Co's. Popular Department store will begin their Great Mill-End Sale. If bargains attract the public we feel sure that the Big Store will be over-crowded with buyers as the special values advertised are truly wonderful. We predict that this will be the greatest sale ever held in Wilmington. **

A RESIDENCE BURGLARIZED

Young Lady Guest at Mr. J. G. Barentine's Home Robbed of $75 While She Slept.

The residence of Mr. J. G. Barentine, No. 115 Grace street, was entered by a burglar between midnight and daybreak yesterday. When the family arose yesterday morning, it was discovered by Mrs. Barentine that the the room of a lady guest on the second floor had been entered during the night, the door being left open and a trunk and all the drawers in a bureau having been ransacked. The lady, who was still asleep in the room, was awakened and it was discovered that $75 in money had been stolen from her trunk. A number of articles of value, including a lot of jewelry in the room, was not touched. Nothing else of value except the money was taken. The lady had retired about 12 o'clock and the burglary was daringly committed while she was asleep in the room as nothing was molested in the room when she retired.

An investigation downstairs revealed that the back door of the residence was unlocked, the key being found on the carpet in the hallway on the inside The belief is that the back door was either opened by a false key, the one on the inside being pushed out of the lock by the burglar on the outside, or that while members of the household were seated on the porch during the earlier part of the night, the burglar crept up the back way and secreted himself in the house until everybody was asleep, letting himself out the back door after committing the burglary.

The case is being investigated by the authorities.

YES, IT WAS HOT.

Yesterday the Hottest for June in Several Years.

Yes, it was hot. It sizzled and it sizzed. It was the hottest day by several degrees this season, but it was not the hottest ever. Far back in the archives of the Weather Bureau, it is recorded that on July 12th, 1879, the mercury chased up the glass as far as 103. But it was a June record breaker for eight years. Not since June 30th, 1897, has it been hotter a day in the "month of flowers," than on yesterday. Then the thermometer climed to 96, but during the eight year intervening not once did it go beyond the record of yesterday. In 1899 and again in 1902, the record of yesterday was equalled with 95, but not surpassed. Yesterday opened with 76 degrees as early as 5 A. M.; an hour later 77 was the reading and the next hour witnessed a further jump of five degrees to 82. Then the mercury climbed steadily, reaching 93 at noon and 95 at 3 o'clock. When sweltering humanity felt that it could endure no more, a thunder cloud came over with a refreshing rain accompanied by a 31-mile velocity squall. The storm partially relieved the situation, but it was still hot until well into the night.

Those who thought yesterday no hotter than the day before were off by four degrees. The maximum on Friday was only 91 degrees. The average over the district for that day was 94.7, so that it is seen that there are other places where the sun shines.

ENTICING OPERATIVES AWAY.

Young Darlington Man In a Peck of Trouble—Another Arrest.

Jesse Jones, a young white man from Darlington, S. C., arrested Friday night and lodged in jail by Deputies Wade and Rouse on a warrant sworn out by A. G. Call before Magistrate J. S. Sykes, of Degado, charging the defendant with enticing cotton mill operatives to leave the State without having paid the license tax of $200 imposed in the revenue and machinery act upon emigration agents, yesterday gave bond in the sum of $200 with Mr. H. C. Bear, of I. M. Bear & Co. as surety, and was released from jail. Mr. Bear gave the bond after communication by telephone, presumably with the parties who sent Jones out after the operatives. Jones has employed Brooke G. Emple, Esq., to defend him and the case is set for a hearing before Justice Furlong, Monday at 10 A. M., the case having been transferred by Magistrate Sykes. Failure to pay the tax as prescribed for emigration agents is a misdemeanor and is punishable by fine and imprisonment, either or both in the discretion of the court.

The same party yesterday swore out a warrant before Magistrate Sykes for young Harrison Martin, of Delgado, who recently completed a term on the roads in this county for some disorder at Delgado, also charging him with being an accomplice of Jones in enticing hands to leave the State. He was placed in jail yesterday evening and will be given trial with Jones on Monday.

Car Traffic Temporarily Suspended.

During the thunder storm yesterday afternoon the wires were struck or overcharged with electricity and the trolley circuit was grounded for about two hours before the trouble could be located. During that time traffic on both the city and suburban lines was suspended. The trouble was found where a wire of the trolley circuit enters the Armour Fertilizer Works, near the Carolina Central station. The wire enters the building by a conduit leading to a large motor used in mixing fertilizers in the works and the grounding was in the conduit. When the trouble was located little time was lost in moving the cars again.

SCANDAL IN RALEIGH

John C. Dockery, Son of U. S. Marshal and Ex-District Attorney are Involved.

FORMER IS FATALLY SHOT

Outraged Father of Ruined Girl Fired Upon Him Yesterday Morning—Both Men Were Here During The Week.

(Special Star Telegram.)

Raleigh, N. C., June 24.—John C. Dockery, son of United States Marshal H. C. Dockery and himself a deputy marshal, was shot and probably fatally wounded just before noon to-day by Policeman Isaac W. Rogers.

The shooting was on the marble stairway of the Tucker building, the principal office building in the city, and was for the reason that Dockery is alleged to have ruined one of Rogers' daughters, a 16-year-old girl; in fact, the charge was that Dockery and C. M. Bernard, ex-United States District Attorney, had carried the Rogers girl and her friend, Miss Bertha Howell, to an assignation house more than a week ago.

Dockery and Bernard had been out of the city for some days. Bernard is now in Wilmington and Dockery only returned here this morning when H. C. Howell, a brother of one of the girls involved, for himself and Rogers, served notice on Dockery of a civil suit for damages against the two men.

At the time of the shooting, Dockery was going up the steps with Howell to the office of James H. Pou, Dockery's attorney, with a view to settling the case if possible. Suddenly Rogers appeared at the head of the steps, revolver in hand and said "Good morning Mr. Dockery," and fired twice. Dockery, having turned when he saw Rogers with his revolver, received both balls in the back, one entering above the shoulder shattering the joint and passing downward into the cavity. The other ball entered lower down about the side and also entered the cavity, ranging down. Dockery fell on the first landing, but managed to get his revolver out and fired at Rogers, the ball striking him in the calf of the leg inflicting merely a flesh wound. Dockery was carried to Rex Hospital where physicians attended him, his condition being found to be that serious that an ante-mortem statement was taken.

There seems to be little chance for him to live. Rogers is in jail waiting the result of Dockery's wounds and a hearing is set for next Tuesday.

Both the girls involved in the affair are handsome and of good family. Rogers and Howell have a warrant out for Bernard when he returns to Raleigh claiming civil damages. He has a wife and two children, and has considerable property.

The woman, Jennie Mays, who keeps the disreputable house, which the girls visited with Dockery and Bernard, says they were there four times the past few weeks, and that there was no evidence of unwillingness on the part of the girls. This statement was brought out by a charge made that at least Bernard forcibly carried the Howell girl from the closed carriage into the house. There is a strong feeling against Bernard, and it is claimed he will not be allowed to live here longer. He has considerable property.

Dockery told the physicians to-night that just as soon as he saw Rogers with his revolver, he turned to get away from him and in that way caught the balls in his back, and that as soon as he could draw his own revolver, as he fell, he fired twice at Rogers. The ante-mortem statement as taken this afternoon is not given out. It is found that the most serious wound is the lower one, a few inches under the shoulder and toward the spine. Neither wound has been probed yet owing to the patient's condition.

Col. H. C. Dockery, father of young Dockery, who figured in the sensational affair referred to above, is United States Marshal for the Eastern District of North Carolina and was here in attendance upon the Federal Court when a telegram reached him yesterday morning, informing him of the wounding of his son. His family who had been spending the week at the Seashore Hotel, Wrightsville Beach, had left on the 7 o'clock Seaboard Air Line train for Rockingham in response to a telegram the day before informing them of the death of young Wall, Col. Dockery's nephew, who was killed at the works of the Westinghouse Company in Pittsburg, where he was employed, a notice of which appeared in these columns yesterday. They were sent a telegram on the train en route and left for Raleigh, upon reaching Hamlet, instead of going on to Rockingham. Col Dockery left on the afternoon train for Raleigh, reaching there at 1 o'clock this morning. Young Dockery was here the day before he was shot, presumably to consult with his father in regard to the trouble he was in, and had reached Raleigh from Wilmington only a few hours before he was shot.

Claude M. Bernard, Esq., another party to the sensational affair, was here during the week in attendance upon the Federal Court, but spent much of his time at the beach. He appeared in the Federal Court as attorney in a case yesterday morning, but was not seen after about noon, so far as can be learned. It is supposed that he also left for Raleigh on the afternoon train and arrived there at an early hour this morning.

SUPERIOR COURT THIS WEEK

Number of Important Criminal Cases For Trial at Term Beginning To-Morrow—Members of Jury.

New Hanover Superior Court, Judge Oliver H. Allen presiding, will convene at 10 o'clock to-morrow morning and continue in session one week. The term will be largely devoted to the trial of criminal cases of which there are a large number on the docket. Some of the important ones are those in which T. F. Bell is charged with the murder of Roderick; Geo. Boney and "Shorty" Long, charged with breaking into the store of Mr. Montgomery, on Princess street, and the Mason boys and young Guthrie, charged with highway robbery. There are also for trial the nine prisoners who recently figured in the wholesale jail delivery, each of them being charged with jail breaking. There are 20-odd defendants in jail for trial and the cases of those will likely be called first.

The jurors summoned for the week are as follows: Wm. H. Alderman, Arthur Branch, Leon George, E. E Hancock, W. A. Snell, T. B. Kingsbury, D. N. Chadwick, G. C. Simmons, C. R. Pape, M. J. Corbett, W. H. Brown, D. P. McLean, A. T. Blake, Chas. F. Bell, Jno. L. Bowden, Abner R. Heath, M. F. Croom, Wm. Gilchrist, A. E. Blair, R. W. Bordeaux, Charlie Walters, Jno. H. Bornemann, J. A. Springer, J. A. Sunday Morning, June 25.

MAMMOTH NORTH CAROLINA ENTERPRISE.

From time to time mention has been made of the tremendous development going on at the Falls of the Yadkin in upper Stanly county, but it remained for Mr. Albert Phenis, of the Manuafeturers' Record to go down to Whitney and write his valuable publication an article which gives the world an idea of the immense scale of the enterprise on foot in that heretofore quiet and rather inaccessible portion of North Carolina. Mr. Phenis' article makes six pages in the Manufacturers' Record, and it is intensely interesting. It would be interesting and entertaining even if the enterprise he writes of were it located in the Alps, but the fact that it is in North Carolina makes it a hundred fold more important to the people of our State. Mr. Phenis says in part:

Whitney, N. C., June 15.

At this point on the Yadkin river, in south-central North Carolina, the county being Stanly, there are the beginnings of what will be one of the most important water-power developments the country contains. Work is being energetically pushed on the first massive dam to be built. When completed this first plant will have turbines and an electrical equipment of 40,000 horse-power capacity. In time a second dam and plant will be put in 10 miles below which will have a capacity of 36,000 horse-power—easily giving this development rank among the greatest undertakings of the kind to be found in the world.

To utilize this 76,000 horse-power it is proposed to build an industrial city here, and when one recalls the great centers which have been built up in New England and elsewhere with water-power as the sole basis for development, it is readily conceivable that Whitney contains possibilities of the most unusual sort. Unlike New England, here is a temperate climate the whole year round; a rich country agriculturally surrounds this spot; there are forests of the finests hardwood nearby; cotton fields are all around; the cheap Southern iron ores are not far away; in this vicinity was the center of gold-mining in America before the days of '49, and among the developing company's holdings is not only a gold mine with more than 1,000,000 tons of ore blocked out and ready for the cheap power which is to be supplied, but it also owns a granite quarry of practically limitless deposits of the finest pink and gray granite to be found.

Here then, is a remarkable combination of rich resources and almost unrivaled water-power. When to that is brought the strength of a broadminded development company, one thoroughly alive to the opssibilities of the situation and one amply financed to carry on the work in the most substantial manner possible, it is evident that here is one of the most interesting and extraordinary undertakings the industrial South has ever known. Without doubt here will be built up a manufacturing city of large population and varied industries, and it would not be surprising to anyone who has been on the ground and has sized up the whole situation to see this growth start early and speedily attain great proportions.

A $10,000,000 corporation of Pittsburg capitalists, the Whitney Company, has this entire work in hand. Of this company Geo. I. Whitney, of Pittsburg, is president; E. B. C. Hambley, of Salisbury, N. C., vice-president; F. L. Stephenson of Pittsburg, treasurer, and H. L. W. Hyde, of Pittsburg, secretary. Through its subsidiary companies it owns about 14,000 acres of land on both sides of the Yadkin river, extending up and down the river from this place for some 14 miles. The subsidiary companies are the Yadkin Land Company, which, along with the large ownerships just named, and which provide against any interference with development plans now or in the future, will work out the plans for town-building on the 3,500 acres devoted to that purpose; the Yadkin River Electric Power Co., which has the dam and power-house construction imediately in hand; the Yadkin Mines Consolidated Co., which owns and has developed the valuable gold mines at Gold Hill, some 15 miles from Whitney; the Yadkin & Virginia Copper & Land Co., which has extensive mineral and land holdings in North Carolina; and the Rowan Granite Co., which owns 340 acres of solid granite five miles from Salisbury.

Whitney Company owns every share of the subsidiary companies' stock Not a share of stock in any of the companies has ever been offered for sale. Whitney & Stephenes with an international reputation for conservatism and successful financial operations in large undertakings, and who are also owners of coal lands and other extensive properties, are the financial backers of this enterprise. They had all the money required for development purposes before they started on the project, and the money has been put in as an investment. Herein is another unique feature of this enterprise, for there has already been blocked out work that will cost about $4,600,000, and the development of the second power would add another $2,500,000 to the cost, making a total investment of over $7,000,000.

This sum includes the construction by the company of about six and one-half miles of railroad, running from a connection with the Salisbury-Norwood branch of the Southern Railway at New London to the Yadkin river at this place. For the purchase of lands, the purchase and development of the granite quarries and the construction of the railroad there was required about $2,000,000. For the work under way, including the construction of the dam and power-house, the canal and spillway, the penstocks and the installation of machinery, the cost will be about $2,600,000.

It would be a matter of vast moment and advantage to the South if this enterprise, of so great proportions and entirely backed by Northern capital, were to be carried out simply to furnish economical power to the hundreds of factories in the 44 cities and towns within a radius of 50 miles of Whitney, but when the plans of the company contemplate not alone the development of this exceptionally large water-power, but propose to create an industrial center that will eventually utilize all the power on the spot, the enterprise takes on additional importance as a notable undertaking for the South and presents possibilities in the line of a many-sided development such as have been present only at rare intervals in a century of town-building in America.

Editorially the Manufacturers' Record says:

Of interest not only to the whole South, but to the entire country because of its magnitude, making it to rank close to the Niagara development, is the great water-power improvement which Pittsburg bankers are carrying out on the Yadkin river in North Carolina. The first development of 40,000 horse-power is now under contract, and later on when this has been completed an additional 36-000 horse-power will be added. The total investment in this water power undertaking and kindred interests in connection therewith will aggregate over $7,000,000. In connection with this development there will be a canal four and one-half miles along, 40 feet wide on the bottom, with an average width of 124 feet at the top, and with a normal depth of water of 18 feet. The actual work of construction of the enormous dam, power-house and other improvements is now being pushed as rapidly as possible. This great investment of Pittsburg capital in the utilization of a water-power which will rank as the second or third largest developed power in the United States will have a marked effect in still further attracting the world's attention to Southern water-powers. There are already many water-power developments under way throughout the South, and many new undertakings are being financed. This Yadkin investment will be an important factor in hastening the trend of capital southward for similar work.

—If Russia had a navy that would float, an army that would fight and a Government that would govern she might in time become a great World Power.—Louisville Post.

—After reading the reports from Arkansas, Wisconsin, and Pennsylvania, the Czar can hardly be blamed for hesitating to establish a Russian legislature.—Washington Post.

—Minister Bowen is dismissed, but not silenced. Loomis is exonerated, but not exculpated. Whatever is touched by asphalt suffers as a consequence.—Philadelphia Record.

—Secretary Taft and President Roosevelt unfortunately are not content with convicting Mr. Bowen; they must coddle Mr. Loomis. Mr. Loomis is hardly a proper subject for coddling, and they will find it difficult to arouse sympathy with him. The facts speak for themselves.—New York World.

—The spectacle of the disarmament of a crowd in a Kentucky Court room should give the people of that State something serious to think over. Every man and boy in the Court room—the hearing in one of the Hargis cases being on—carried a concealed revolver. The incident throws some light upon the causes of violence and murder in Kentucky—Chattanooga Times.

—The abandonment by the New York Central of the eighteen-hour train between New York and Chicago, because of the wreck of the flier on the Lake Shore, leaves the Pennsylvania Railroad's Chicago Special without a rival, if it really ever had one. For speed, combined with comfort and safety, the trains of the great railways centring in Philadelphia are without peers.—Philadelphia Record.

—Charleston's pride in her navy yard has increased since it has involved the navy and government contractors in trouble and in consequence is figuring in the papers all over the country. It is now charged that several United States Senators are financially interested in the government work at the yard and there may be some sensational developments.—Charlotte Chronicle.

—In twenty years we have increased our trade with Japan by $27,000,000, as against a British increase of $26,000,000, notwithstanding the fact that at the beginning Great Britain had five and a half times our quota of Japanese import trade. Today we supply 15.7 per cent. of Japanese imports and take nearly one-third of her sales to foreign countries. So far, at all events, there has been no suggestion of any "peril" in Japanese progress to our trade in any part of the Far East.—Chicago Record-Herald.

No Secret About It.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at R. R. Bellamy's drug store.

"I've Lost Ten Pounds"

A man says. "Look at this." And he over-laps his coat to show how loose it is. There are some people who can lose *fat* to advantage, but the loss of flesh is one of the accepted evidences of failing health. As flesh-making processes begin in the stomach, so naturally when there is loss of flesh we look first to the stomach for the cause. And the cause is generally found to be disease of the stomach and digestive and nutritive tracts, resulting in loss of nutrition and consequent physical weakness.

Doctor Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

"My wife was for five years troubled with indigestion of stomach and bowels, bloating and severe pain at times during the entire five years," writes Mr. J. Milton Unger, of McConnellsburg, Pa. "Her heart was affected, and she took a purgative every few days but only received temporary relief. She got very poor in flesh and I bought one bottle of Dr. Pierce's Golden Medical Discovery from our druggist and after taking it she said she felt like a new woman. Has no more trouble with stomach and bowels, and has no pain nor bloating. Has gained fifteen pounds in weight."

Dr. Pierce's Pleasant Pellets cure constipation and biliousness.

SPIRITS TURPENTINE.

—Greensboro contemplates laying some 15,000 to 20,000 square yards of brick or bitulithic pavement during the Summer.

—Troy Montgomerian: A canning outfit has been puchased by G. W. Allen & Son to be located at the company's cotton gin in the eastern part of town.

—W. A. Rich, of Graham, J. H. Hawks and J. H. Rich, of Burlington, N. C., have incorporated the Rich Furniture Co., at Graham, with an authorized capital stock of $30,000.

—Mt. Airy News: The Republican papers are already advising that the leaders drop the idea of a great daily at Greensboro and have weekly papers in each county. We expect all this talk to wind up with a weekly.

—Greensboro Record: Judge Peebles does just as he pleases and seems to find the law for it. He cares less for public opinion than any gentleman who ever drove down this end of the pike. Lawyers have no influence over him whatever.

—Raleigh Post, June 24: A negro murderer, John Miller, who had nearly completed a thirty year sentence in the penitentiary from Buncombe county, died yesterday. Thirty years usually means a life sentence, since few survive such a long term.

—The Dalton Furniture Co., of High Point, which submitted the lowest bid was last week awarded the contract for furnishing the Postoffice Department at Washington, for next four years with 20,000 desks and as many stools for the use of rural free delivery carriers. It is stated that the bid was about $160,000.

—At Raleigh on Friday morning two convicts, Cody, a 17-year-old white boy, serving ten years for burglary, and Lambert, a white man, convicted of man-slaughter, made their escape from the penitentiary garden, where they were at work, while H. D. Ponton, the gardener, banged at their retreating forms four times with a shot gun.

—The surveyors have completed the work of surveying two routes between Durham and Raleigh for the trolley line. One route is by way of Leesville and will enter Raleigh by Sanders street. This route is twenty-one miles in length to a site near the city limits of Raleigh. The other route, by Nelson, Morrisville and Cary, entering Raleigh by Hillsboro street, is twenty-five miles. It is expected that work will begin on this line some time this year.

—Mt. Airy News: Mr. "Flurd" Murphy, a citizen of the upper part of the county, was down in Surry this week looking at some land he owned. He was returning home Tuesday, and while riding along near Barker's store in the Logan neighborhood he is supposed to have fallen from his horse and killed himself. Parties passed in a few minutes and he was able to speak, but lived only a few minutes. The mail boy brought the news here, and as he expressed it his neck was stove up until he had no neck.

—The Mecklenburg Cotton Mills of Charlotte, has been changed from a waste mill to cotton-cloth mill. The company is at present undergoing a process of reoganization, the capital having been increased from $100,000 to $300,000 with a view of installing 15,000 spindles and 375 looms. It is proposed to begin manufacturing either convertibles or export good in the Fall. Most of the equipment has already been purchased and some extensions are now being made to the plant, while additional power equipment is being added.

—Raleigh News and Observer: A gentleman interested in the inland waterway between Beaufort, N. C., and Norfolk, Va., was in Raleigh yesterday and said the government engineers are in Charleston, S. C., in conference with engineer officers there, and are considering the improvements of the inland water route. He said that navigation interests have been demanding of congress the improvement of this waterway for years, that vessels might use it and avoid the rough water off shore, and the government has taken up the project, with a view of putting the inland waterway to use as a part of the coast defense system. The previous recommendation of the engineers was for a 16-foot channel, at a cost of $10,000,000, but this was too steep for congress, and the engineers will now figure on a ten to twelve foot depth. Congress has made an appropriation for the survey. The report of the officers will be submitted to congress.

—On Friday at Williamston, in the Superior Court of Martin county, Preston Daniels was sentenced to be hanged for killing William Ebron. On June 2nd a negro excursion was run from Washington, N. C., to Goldsboro, on which Preston Daniels took Gertrude Little. When the train stopped at Parmele Preston went to a saloon and got some whiskey. When he came back William Ebron, who had for some time been his rival, was sitting on the seat with Gertrude, but soon took another seat on the other side of the car; Preston occupying his former seat. In a few seconds Preston drew his pistol from his left hip pocket and placed it in his right hand and exclaimed, "Look out." Then William turned his head slightly toward Preston who fired his pistol, the ball entering Ebron's forehead over the right eye. Preston got up and walked out of the car singing the song "I am going where I've never been before." If executed it will be the first hanging in the county for over thirty years.

Last Excursion to Newbern.

The last excursion of the season to Newbern will be operated over the famous Atlantic Coast Line on Monday, June 26th by Thomas H. Knight, whose excursions are always a delightful treat. Don't let the last opportunity to go to hospitable Newbern go by, but join the merry throng and enjoy a day of genuine pleasure among a people whose hospitality is proverbial.

Trains leaves the depot at 7:30 A. M., and returning, will leave Newbern at Midnight. Round-trip rate only $1. There will be separate cars for white and colored passengers.

Newbro's Herpicide

VACATION TIME. Vacation time should bring rest, recreation and comfort; and comfort of the solid and pleasing variety means no high collar, no stiff hat and no—itching scalp. It is for this last discomfort that **Newbro's Herpicide** becames a summer necessity as it stops itching of the scalp and Prickly Heat almost instantly. Take Herpicide with you on your vacation.

SCALP WARNING—Itching of the scalp is not so much a punishment for past neglect as it is a warning for the future. It shows, almost conclusively, that the vine-like microbic growth that causes dandruff, itching scalp and falling hair has entered the Sebaceous glands and unless this growth is stopped and kept out of the scalp, baldness will follow.

DANDRUFF IS CONTAGIOUS. The discovery, by Prof. Unna (ask your doctor about him) that dandruff is a highly contagious disease, is now recognized by dermatologists everywhere. This important discovery, not only proves the worthlessness of "Hair growers," but it offers an opportunity for scientific hair preservation, in the use of Newbro's Herpicide, the original remedy that "kills the dandruff germ."

WILL NOT GROW HAIR. Newbro's Herpicide is a "Hair Saver;" it will not grow hair—nature does that—but by destroying the enemies of hair health, it enables the hair to grow as nature intended—except in chronic baldness. Save your hair with Herpicide. Wonderful results follow its use.

HOT WEATHER TROUBLES. During hot weather the minute sudatory glands of the scalp are called upon to perform an extra amount of labor. The perspiration that exudes in increased quantities must be handled promptly as it carries out poisonious and refuse matter that would otherwise clog up the pores of the scalp Incomplete elimination of refuse matter produces a hot and feverish condition of the scalp, familiarly known as Prickly Heat, for which Herpicide gives immediate relief. Ladies will find Herpicide indispensible. It contains no grease, will not stain or dye. It is an exquisite hair dressing that COOLS, COMFORTS and DELIGHTS.

Destroy the cause—you remove the effect.

HOW HERPICIDE IS ADVERTISED.

I have used one bottle of your Newbro's Herpicide and think same is all nad more than what is claimed for it. I have, whenever the opportunity has presented itself—spoken of it to my friends, and can fully recommend it to any one who is troubled with dandruff or falling hair.

SHERIFF DEFIES GOVERNOR.

Refuses to Enforce Anti-Race Gambling Law—Will Arrest Troops.

By Wire to The Morning Star

St. Louis, June 24.—Governor Folks order to stop race track gambling in Missouri, with the aid of the militia if necessary, to-day met defeat at the hands of the sheriff of St. Louis county, John Herpel, who says he will not raid race tracks or call for troops and that if the governor sends troops to molest any one, the soldiers will be arested, possibly shot. Sheriff Herpel declared he was opposed to raids, as a usurpation of the judicial authority and said:

"An appeal to bayonets is the first threat of a bigot, fired by fanatical zeal, his personal ambition and by ideas, against the guaranteed liberties of the people."

Eight arrests were made to-day by deputy sheriffs who went to the booths conducted by William Flinn, president of the Central Turf Association, and by Charles Noel, and arrested the two men together with six assistants. The paraphernalia was confiscated. Later they were released on bonds of $1,000 each.

Jefferson City, Mo., June 24.—When informed tonight of the statement of Sheriff Herpel, Governor Folk said that in addition to stopping the alleged violations of the better law at Delmar track, he would take steps forthwith for the removal of Sheriff Herpel and County Prosecuting Attorney Johnston for "their utter disregard of their official oaths."

DFRAUDED GOVERNMENT.

Governor, Ex-Governor, Treasurer and Others To Be Prosecuted.

By Wire to The Morning Star

Ardmore, I. T., June 24.—A special grand jury which has been investigating alleged frauds in Chickasaw warrants tonight filed indictments for conspiracy as follows:

For conspiracy to defraud the Chickasaw nation, Governor D. H. Johnston, former Governor Flamer S. Mosely, George S. Mansfield, J. F. McCurry and Melvin Cornish are made joint defendants. For conspiracy to present false claims against the United States, the defendants are W. T. Ward, United States Marshal B. H. Colbert and Kirby Perdom. For conspiracy to defraud the commercial National Bank, B. T. Colbert, W. T. Ward, W. A. Teele, S. M. White and E. B. Hinshaw.

For conspiracy to defraud the Joplin, Mo., bank B. T. Colbert, Kirby Purdom and W. T. Ward.

S. M. White and E. B. Hinshaw, two of the defendants are prominently connected with the Chickasaw nation schools. Hinshaw is at present superintendent of Bloomfield Seminary, a school for Chickasaw young women at Bloomfield, and White is superintendent of Harley Institute at Tishomingo. Tele. Hinshaw and White were directors of the defunct bank of the Chickasaw Nation, through which institution these illegal deals are alleged to have been carried on.

PRES. ALEXANDRA DISGORGES.

Made Restitution of $25,053.22 to Equitable Society.

By Wire to The Morning Star

New York, June 24.—Announcement was made tonight by Attorney General Mayer who has postponed his return to Albany until to-morrow in order to attend to the affairs of the Equitable, that restitution had been made by former President Alexander of $25,053.22 representing amounts received by him, with interest, on certain syndicate operations referred to in the preliminary report of Superintendent Hendricks. The announcement was conveyed in a letter addressed by H. M. Alexander, son of the former president to Chairman Paul Morton, a copy of which was sent by the writer to Attorney General Mayer "for his information" and given out for publication by Mr. Mayer.

James Hazen Hyde to-night denied the story that his father Henry B. Hyde had obtained $5,000,000 or more in settlement of claims or commissions. He said also "if the superintendent of insurance had taken the precaution to make a few inquiries into the history of the safe deposit leases, before assailing the memory of a dead man, he would have learned that the Society had made vast sums of money out of these leases."

CHINESE BOYCOTT ALARMING.

Chamber of Commerce of Portland Urges Prompt Action.

By Wire to The Morning Star

Washington, June 24.—That the threats of the commercial guilds of China to boycott American-made goods has raised a serious question in the minds of this country's business men and manufacturers is indicated by a telegram received to-day by President Roosevelt from the Portland, Oregon, Chamber of Commerce. The President authorized the publication of the telegram, which says:

"Our commercial interests are seriously threatened by the severe manner in which our present laws regulating the admission of the Chinese into this country are executed, which seem in their practical working to contravene treaty obligations. We earnestly recommend that a more liberal interpretation of the laws be enjoined upon the immigration authorities. We are advised to-day by cable from Hong Kong that immediate action is necessary by our government, for a boycott of American products will follow."

Secretary Metcalf had a long conference about the matter to-day with the President.

SEABOARD AIR LINE TO BUILD.

Road To Be Extended Into the Coal Fields.

Cincinnati, June 24.—Charles B. Ryan, general passenger agent of the Seaboard Line, today said that the Seaboard Line would extend its road to the sources of the Big Sandy river to reach valuable coal lands and would there connect with a line now under construction by the Chesapeake and Ohio.

WARM WIRELETS.

In Paris, France, yesterday the marriage of Prince Henry Galard de Bearn et de Chalais to Miss Beatrice Winans, daughter of Mr. and Mrs. Ross Winans, of Baltimore was celebrated at noon in the Church Ste Clotilde.

C. M. Wright, a well known white merchant and Republican politician, was fatally wounded at Leighton, ten miles from Tuscumbia, Ala., yesterday afternoon by Frank Daniels, a negro, who escaped, pursued by enraged crowds.

In New York yesterday Police Commissioner McAdoo issued orders to the police to stop every baseball game in Brooklyn today (Sunday) where admission is paid either directly or by sale of score cards. This will prevent the game scheduled between the New York and Brooklyn teams of the National League.

TALE OF HORROR FROM LODZ RIOTS

Troops Fired Recklessly in Streets of Lodz, Killing Women and Children

HUNDRED OR MORE SLAIN

Streets Looked Like Battlefield—Five Hundred Wounded and Fighting Continues—Rioting Broke Out in Warsaw Last Night.

By Cable to The Morning Star.

Lodz, June 24.—Since the arrival of reinforcements this morning actual fighting in the city has stopped, but the outbreak is by no means quelled and fresh collisions are expected momentarially. The shameless and the terrible scenes of the last two days will never be wiped from the memory of the Polish people.

Altogether there are ten regiments encamped in Lodz. The fighting spirit of the people is fully aroused. They have tasted blood and want more. Certainly the revolutionary spirit is abroad and it remains to be seen whether military mensures will have the same effect as previously.

To-day at Baluty, a suburb of Lodz, four Cossacks were killed and seven others wounded by a bomb which was thrown into the barracks. Twenty of their horses were killed.

Occasional volleys are still fired by the police or gendarmes in response to shots from houses. The soldiers are showing what appears to be wanton cruelty. Late this afternoon they shot and killed two women, a mother and her daughter.

The funerals of victims of the shooting Thursday and Rriday took place to-day surreptitiously in various outlying villages.

It is quite impossible to give the exact number of killed and wounded, as reports vary according to the quarter from which they are obtained. Certainly the killed number more than a hundred, possibly two hundred and the wounded five times as many. An official says that the number of casualties was largely increased by the neglect of persons to remain in doors and of others who insisted on looking out of doors and windows when volleys were being fired upon the rioters by the soldiers. Residents of the city say that they received no orders to remain in doors.

The present trouble began at Lodz last Tuesday after the conflicts between troops and terrorists the previous Sunday.

The Christians were permitted to bury their dead, but the Jews were prohibited from doing so and the police secretly interred the bodies of the Jews at night, which excited indignation and terrorists riots were initiated Thursday. The most serious phase of the rioting developed when the crowd deliberately pillaged liquor shops and numbers of persons, inflamed by drink, led a crowd of at least 50,000 to further and more serious attacks. Police and military were attacked wherever they appeared in small force and many individual members were killed.

After pillaging the liquor shops the crowd set fire to them and prevented the firemen from extinguishing the blazes. This was repeated deliberately at many places. Friday the fury of the mob found full vent and even children, caught by the contagion, were seen kissing red flags and heard swearing that they were ready to die for liberty. A Jewish girl mounted a box in the market square and addressed an immense crowd. Suddenly the police appeared, fired a volley, and the girl fell dead. Market gardeners coming in were stopped and their carts used in building barricades. Wires were stretched in front of these barricades and the cavalry was unable to charge. Meanwhile the mob had secured arms and revolvers were freely used. Finally the military secured the upper hand, but not without considerable losses to themselves and fearful slaughter to the rioters. The soldiers exhibited the utmost carelessness as to whether they killed peaceful persons or rioters, and as a consequence many women and children were among the dead. The srteets on Friday resembled a battlefield. The houses were barricaded with boards and mattresses and for hours volleys and individual firing were heard in every quarter of the city. Until late at night the cossacks were busy collecting the bodies of the dead and picking up persons seriously wounded. The bodies were carried off in carts to neighboring church yards. Hence the impossibility of giving an accurate estimate of the dead until order is complete restored, if indeed, the full story is ever told.

Fighting Last Night.

Lodz, June 24.—Shooting was renewed this evening. Cossacks are robbing the dead of jewels and money. A factory owner named Neumann has been shot by strikers.

Several Hundreds Killed.

St. Petersburg, June 25.—3:20 A. M.—St. Petersburg is without definite news of the happenings on Friday and last night at Lodz, and there is the keenest apprehnsion that Saturday may have been marked by a renewal of the battle of Friday, the dead of which are apparently to be numbered by hundreds.

Nothing approaching the disorders, which passed far beyond the scale of recent demonstrations and approximated the dignity of actual insurrection, recalling the days of the Cummune in Paris, has been recorded in Russia since the street fighting at Warsaw during the Polish revolutions of 1830 and 1863. The events of January 22 in St. Petersburg, "red Sunday" were merely the dispersal of unarmed crowds by soldiers, but at Lodz the troops were desperately opposed by an army of sixty thousand workingmen, many armed with revolvers, defending substantial barricades with bullets and showers of paving stones and other missiles and even bombs.

The industrials were apparently largely in the hands of the manifestants and the task of the troops was akin to that of the Russian soldiers in the war in Turkestan, when towns had to be stormed, street by street, almost house to house.

The demolition of the barricades at Lodz required regular sapper work under the fire of revolvers and showers of missiles from windows of houses and by which the troops suffered heavily. The military governor had at his disposal four regiments of infantry and two of cavalry. The last barricades were taken at four o'clock Saturday morning. A dispatch received by way of Warsaw estimates the number of slain indefinitely at "several hundred workmen," and sixty soldiers; but no definite statement has yet been received, another dispatch direct from Lodz giving forty dead being admittedly incomplete.

Rioting in Warsaw.

Warsaw, June 24.—Riots commenced here tonight. Gendarmes charged a crowd and infantry patrols fired two volleys. Three men were wounded. The crowd was also armed and fired upon the troops. A secret police agent was stabbed.

Processions were formed at 6 o'clock this evening and marched, with red flags, down Grsybowska street. At the corner of Wronia street a mounted patrol crossed the procession and one of the marchers threw a bomb, which exploded and wounded two gendarmes. The man who threw the missile escaped.

Simultaneously there was another demonstration by persons carrying a red flag at Leschno, but there was no bloodshed.

Crowds are assembling at several localities east of the city. Their attitude is menacing and the public is panic stricken.

The situation here, with a majority of the workmen striking, the walkout threatening to become general and the working class inflamed by the news of the fighting at Lodz, is extremely critical. The strike was ordered by the social revolutionary committee as a demonstration to affect the trial of Stephen Okrjeia, the locksmith who threw a bomb into the Praga police station on March 26, injuring six policemen and his conviction and sentence to death to-day, has still further enraged the revolutionary leaders.

Workmen are wearing mourning for those killed at Lodz.

All the street railways except on the principal thoroughfares in the city, have been stopped, and the newspapers have suspended publication.

All the shops are closed and intense excitement prevails.

Disturbances similar to those at Lodz are feared.

PEACE NEGOTIATIONS AT DEAD STANDSTILL

Both Russia and Japan Are Disinclined to An Armistice—Daily Skirmishes at Front.

By Cable to The Morning Star.

Headquarters of the Russian Army, Godzyadani, Manchuria, June 24.—The Russians on June 21 made a reconnaissance in force against the Japanese right in the region of Oancheze. The Japanese advance post retired to Tsaopinga where they have built strong fortifications, and held them in force. Behind this line of positions are two other lines of fortifications strengthened by bomb-proofs and entanglements. The Russian attack which forced the Japanese to summons three divisions of infantry from Kaiyuan ceased with darkness and the Russian detachment retired.

Russian Cruiser Floated by Japs.

Tokio, June 24.—11 A. M.—The Japanese commander at Port Arthur reports that the Russian armored cruiser Bayan has been successfully floated.

Daily Skirmishes.

General Oku's Headquarters in the Field, June 22.—(Delayed)—Nothing important has recently occurred except daily skirmishes between the outposts of both armies. Hot weather has arrived and General Oku's entire army has been newly clothed in khaki.

Japan's Parties To Take a Hand.

Tokio, June 24.—Delegates of the two great political parties, the Constitutionalists and the Progressives, will meet here next Wednesday to discuss peace and will then memorialize the government on the subject.

Negotiations at Dead Halt.

Washington, June 24.—Peace negotiations between Russia and Japan have come to a dead halt on account of an illness of Count Lamsdorff, the Russian minister for foreign affairs. It is explained, officially, that nothing in the form of a hitch has occurred, but that the negotiations merely have been suspended temporarily.

Count Cassini, the Russian ambassador, had a brief interview with President Roosevelt to-day, but he had no additional important advices from his government to communicate. They discussed informally the peace situation, the President expressing his earnest hope that another general engagement in Manchuria might be averted by hte negotiations for a permanent peace now pending.

It is learned that up to this time averted by the negotiations for a permnot been received with absolute favor by either Russia or Japan. In diplomatic circles Russia's delay in announcing her peace plenipotentiaries has aroused a feeling of apprehension. There is no lack of confidence on the part of the President in Russia's sincerity but this delay in the preliminary negotiations, it is realized, may have an exceedingly bad effect upon public opinion in Japan.

LOOMIS SENT TO EUROPE.

Will Not Be Assistant Secretary After His Return.

By Wire to The Morning Star

New York, June 24.—On a mission for the State Department for which he was commissioned by President Roosevelt, Francis B. Loomis, Assistant Secretary of State, sailed for Southampton to-day on the steamer Philedlphia. He is going as special ambassador to receive Paul Jones' body and also to make an investigation of the business methods of the various diplomatic posts in Europe.

Washington, June 24.—It is not expected now that Mr. Loomis will return to the State Department to remain for any considerable time, and he may not return at all, as Assistant Secretary of State. That he will receive some appointment at the hands of the President seems certain now, but it has not been determined yet what the appointment will be.

EVANGELIZATION OF THE WORLD

Greatest Obstacle Indifference of Christians at Home.

By Wire to The Morning Star

Asheville, N. C., June 24.—The greatest obstacle to the evangelization of the world is not abroad, but in the indifference and want of faith in Christians at home, was the concensus of opinion of the Southern missionary movement conference to-day. The discussion was led by S. Earl Taylor, field secretary for the young people's work of the missionary society of the M. E. church. The principal address of the day was by John R. Mott, secretary of the World's Christian Student Federation, and classes were led by Harry Wade Hicks, assistant secretary for the American board of commissioners for foreign missions.

ISTHMIAN CANAL COMMISSION.

President Roosevelt Calls Meeting of Consulting Engineers.

By Wire to The Morning Star

Washington, June 24.—President Roosevelt today issued a call for a meeting of the board of consulting engineers of the Isthmian Canal Commission for September 1st, in this city. The order makes General George W. Davis, chairman of the board, and provides that if deemed necessary a visit to the isthmus will be made. The work outlined for the board is to consider all plans which have been suggested for the construction of the canal and to formulate their suggestions as recommendations to the commission. In case of divergence of views, minority reports by members of the consulting board are requested.

TALK OF WAR OVER MOROCCO

Excitement in France is Great and Eventualities Depend on Germany

GERMANY VERY DELIBERATE

France Can Put Million Trained Men in Field—Military Forces of Both Powers Active on Frontier.

By Cable to The Morning Star.

Paris, June 24.—8 P. M.—For the first time since the Fashoda incident the French public is in the throes of the war fever. Whether it will result in anything serious depends on Germany's response to the French note on Morocco, but without considering the exact status of the diplomatic negotiations a considerable element of the public and press seriously discuss the possibilities of a resort to arms.

Army circles are particularly active and at the military clubs the officers are mainly engaged in making comparisons of the forces of France and Germany. While the financers scout the idea of war yet the speculative element has been quick to seize the opportunity to raid French rentes, which, when they closed tonight, showed a fall of one franc eight centimes within the week. The official view is that the situation while delicate does not present any aspect of danger or a crisis involving a rupture of relations.

It is pointed out in diplomatic quarters that the worst aspect of the Moroccan question does not present a causus belli. An analysis of the controversy shows that the Sultan of Morocco invited the powers to a conference. Germany urges the powers, including France to accept. Premier Rouvier's latest note shows the willingness of France to consider a conference if Germany explains her purposes, but even should France declines to acept, this refusal of the invitation does not constitute a cause for war.

The controversy serves to call attention to the complete state of readiness of the French military system to meet any emergency. The present peace footing of the army is 550,000 men. This force is organized on an elastic basis whereby the doubling and tripling of the strength of each company doubles and triples the aggregate army. The first and second reserves are made up of trained men who heretofore have completed the military service which the state requirs all citizens to complete. The equipment of the reserves is always kept in readiness at the barracks.

Military experts say that the calling of the first reserves to the colors would probably furnish an immediate force approximately of a million trained men and thereafter the second reserves and the territorial militin would permit of much further expansion.

LaLiberte tonight began the publication of a series of articles from the frontier showing the excited state of public feeling and the activity of the military forces, which are alleged to be constantly drilling and undergoing inspection.

The diplomatic situation remains unchanged as Germany has not yet presented her answer to the French note. Officials say the negotiations are taking the usual normal course without at present any indication of a marked change.

Germany Acting With Deliberation.

Berlin, June 24.—The foreign office officials are busily engaged in studying the French note on Morocco, the unusual length of which will necessarily delay answering it.

As the study of Premier Rouvier's answer progresses the fact becomes evident that he has left many points open for discussion and from which further negotiations can continue.

Official circle here continue to follow the affair with keen interest but without anything like excitement much less bellicose inclinations.

COLLEGE Y. M. C. A. CONFERENCE

Three Thousand Students To Attend Quadrennial Gathering.

By Wire to The Morning Star

Asheville, N. C., June 24.—The first official announcement was made at the conference of Southern college Y. M. C. A. students to-day of the quadrennial gathering of student volunteers at Nashville, Tenn., February 28 to March next year, by John R. Mott, secretary of the World's Christian Students Federation. Mr. Mott predicted one of the largest gatherings of college students ever held in the South. Three thousand men representing 500 colleges and universities in the United States and Canada will attend. The conference here will close tomorow. Places in the athletic tournaments which have been daily features were decided to-day.

JUNIOR BASEBALL LEAGUE.

Monarchs and Y. M. C. A. Victors Over Opposing Teams Yesterday.

Standing of the Clubs.

	Won.	Lost.	P. C.
Monarchs	7	1	.875
Y. M. C. A.	5	3	.625
S. S. R.	2	6	.250
M. S. G.	2	6	.250

Although, by winning both games from the S. S. R. team yesterday afternoon, the Y. M. C. A. jumped up the percentage column by several notches, the Monarchs were equally as fortunate to take both games from the Market Street Giants, and they are still the champions of the Junior Baseball League.

The Monarchs met the Giants at Seaside Park and took both games by the scores of 10 to 9 and 8 to 6, thus winning all of the four games played this season with the Giants, who are plucy, but unlucky. In the first game Brinkley and Moore were at each end of the firing line for the Monarchs and Gore and Lacey were there "with the goods" for the Giants. In the second game Poisson and Gore, W., formed the battery for the Monarchs, and Lacey, W. and Seifert for the opposing nine. The feature of the game was a phenomenal catch by M. Gore on third base; indeed, the play is spoken of as the sensation in the Junior League this season.

The Y. M. C. A. was victorious in both games with the S. S. R. nine by scores of 12 to 4 in the first game and 8 to 5 in the second. The feature play was a home run by Duls and the heavy hitting all round by the Y. M. C. A. boys. In the first game, Alderman and Bulluck, for the S. S. R.'s, and Duls and Houston for the Y. M. C. A., were the batteries, while in the second game King and Bulluck and Belden and Houston did the honors for their respective teams.

Buck, Mullins, S. C.; Mrs. M. G. McDonald, Jacksonville, Fla.; Dayton Page, Nichols, S. C.; L. W. Temple, Page's Mill, S. C.; G. W. Gary, New York; C. A. Manship, W. A. Caldwell, A. C. Watson, Columbia, S. C.; J. A. Lambdin, Macon, Ga.; V. H. Johnson, Atlanta; Miss Blankenship, New Orleans; H. L. Boardman, Louisville.

The splendid Seashore Hotel Orchestra directed by Prof. H. M. Weber will give a special sacred concert in the auditorium this evening beginning promptly at 8 o'clock and the public is cordially invited. The week-end dance last night was attended by hundreds of young people who throughly enjoyed the occasion.

GET INSIDE.

Your Friends and Neighbors in Wilmington Will Show You How.

Rubbing the back won't cure backache.

A liniment may relieve, but can't cure.

Backache comes from the inside—from the kidneys.

Doan's Kidney Pills get inside—They cure sick kidneys.

Here is Wilmington proof that this is so:

R. F. Rowan, clerk with L. W. Davis' Clothing House, residing on Castle street between Sixth and Seventh, says: "I strained myself lifting a heavy box, and suffered great pain across my back for a long time. I used plasters and liniments but they did me no good. I could hardly stand up straight, my back was so weak. Seeing Doan's Kidney Pills advertised in our newspapers I went to Bellamy's drug store and got a box. I felt better the next day and continued using them according to directions and my back regained its old strength. I was simply surprised at the result. I will gladly recommend Doan's Kidney Pills every time for backache."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. ••
